**Note:**

You need to play in all 3 rounds to be eligible.

Your benchmark score will be either your BBO PI or your Impala PI, whichever is greater.

If your benchmark score is deemed to be artificially low, or you do not have a "track record" on BBO or at Impala, a benchmark score will be allocated to you.

Each week the benchmark score for a pair is the average of the respective benchmarks of the two players.

Your adjusted score is calculated by offsetting your actual score against your benchmark. You and your partner have the same adjusted score for the round.

Example: Benchmark = 55%, actual score = 57%, adjusted score = 52%.

Example: Benchmark = 45%, actual score = 45%, adjusted score = 50%.

Example: Benchmark = 60%, actual score = 50%, adjusted score = 40%.
